

FUTURE STARS

AGES 3 & UP

This program is the first step in introducing your future stars to the game of tennis. Using appropriately sized equipment and courts, your child will learn basic coordination, proper fundamentals of tennis, and correct swing shape. Our teaching professionals will make these 45-minute classes a fun, energetic atmosphere to learn tennis so that they can progress and transition seamlessly into the next phase of tennis.

FUN

We will laugh, cheer, and encourage both effort and achievement. We want tennis to be the best part of your child's day.

FOCUS

We will keep your child active and engaged during the lessons — following instructions, playing in team settings, learning sportsmanship, and acknowledging the success of others.

FITNESS

We will help your child develop and build confidence in their hand-eye coordination, footwork, and overall athleticism.

FUNDAMENTALS

We will develop core concepts that your child can continue to build on as he or she grows.
